

Cutting edge business resilience in just 60 Minutes

Helping small and medium size
enterprises to be more resilient to
business challenges

‘Simplicity in Resilience®’

“All businesses want to know what to do when something goes wrong”

Paul Kudray MSc FICPEM MEPS CBCI, July 2016

- Business Continuity Management (BCM) can be too complicated, time consuming and costly for today's SME's
- 'Simplicity in Resilience' will give the SME a position to succeed
- Unique time saving approach with access to resilience expertise and support
- 3 unique levels of modern resilience support

The 'Simplicity in Resilience®' Concept

- Time is critical to all of us - SME's will not have time for full BCM in the future
- Innovation needed to help future proof businesses in the world of tomorrow
- Facing the facts – BCM is fantastic for some, but not all
- Created the most innovative resilience tool in the world – Its just not complicated
- Produces a simple, effective contingency plan of action using just 6 easy steps
